

Mark Andrew Pope

Christian Songwriter

After more than a decade in church music ministry, Mark Andrew Pope has written and recorded his first CD. The full, rich harmonies and life changing lyrics of Mark's music convey a strong message of God's love. They also reach listeners on a deeply spiritual level while maintaining a high level of musical excellence.

Many of Mark's songs and compositions have been played at churches and concert halls across the country. His musical background is varied and rich with experience. His love of the church liturgy and choral traditions lead him to pursue and earn a degree in music composition as well as masters degrees in choral conducting and sacred music.

It was his love of genuine and passionate worship that drew him into writing music for worship, prayer and contemplation. Some of the acknowledgement Mark has received for the music he has written:

- ❖ "What a testimony to our Lord! Each word fills my soul and I know that lives will be blessed and even changed when they hear the words the Lord has given Mark."
- ❖ "He truly understands what it means to be a worship leader. Mark knows the reason that we make a joyful noise. His one goal in worship is to point others to Christ. He can take a group of ordinary people and turn them into a family of worshippers."

Mark truly strives to bring his best to worship at every opportunity. He would be honored to be invited to your church to enter into at time of worship with your congregation and share his music, and most importantly, his love for the Lord with your community.

Mark is available for:

- ❖ Sunday Morning Concerts or Mini-Concerts
- ❖ Evening Concerts
- ❖ Revivals or Retreats
- ❖ Choral Workshops
- ❖ Consultation with church leaders on reinvigorating your worship services
- ❖ Any time you need a special musical guest

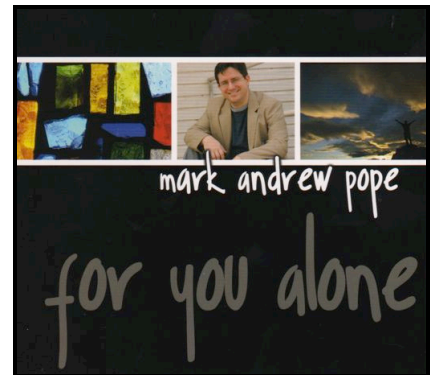

Mark can present his music as a solo, acoustically, with just a piano for a more intimate setting. Or, for a fully orchestrated presentation, he can sing with unique background tracks that allow him to sing and play piano integrated with the original tracks from his CD. Also, with special arrangements he can provide live musicians, or, with rehearsal, use musicians from your church.
